## Town Project Status Reports

### Public Safety Building Project

You can watch a video, taken by a drone flying over the building site. Just visit [www.bow-nh.gov](http://www.bow-nh.gov) and click on the construction photo. The official project groundbreaking ceremony was held on Thursday, August 4<sup>th</sup>. Work on the project is moving right along. The major site work has almost been completed and the sewer connection has been installed. The contractor will soon be pouring the concrete footings and the slab.

Deputy Fire Chief Mitchell Harrington is working with vendors on the phone and computer systems for the new building and Police Chief Erin Commerford, Fire Chief Dana Abbott and Emergency Management Director Lee Kimball are finalizing the communications and security system plans with vendors. DPW Director Tim Sweeney is working with Unitil and Fairpoint to relocate the power lines away from the driveway entrance and provide power to the new building.

The NH Municipal Bond Bank finalized the repayment schedule for the bond that was sold to finance the project. The Town will save \$918,951 over the life of the bond due to the 2.16% interest rate that was received. Significant savings have been realized due to the rate being 1% lower than had been estimated and by the Board of Selectmen choosing to go with a shorter repayment term of 15 years.

## Fire Department

Is your Medical Alert System dialing the right number? A Medical Alert System is an electronic key chain, necklace, or bracelet that is used to request an ambulance, should you be unable to get to your phone. These systems typically dial the vendor's centralized monitoring station. THE MONITORING STATION SHOULD CONTACT FIRE DISPATCH, NOT THE FIRE STATION. If you or a loved one has a Medical Alert System, please verify with your vendor that a request for an ambulance will go to Concord Fire Dispatch at (603) 225-3355.
