Hello all,

I have added the lead testing policy to our work on nursing policies that we will be looking at this year. We have two new school nurses coming onboard and we also have a large policy project that is looking at all of our nursing related policies including required immunizations or screenings for school attendance.

That work has been put off a little as we have new nurses coming in, but we will consider the Claremont policy as we review that area.

Thank you

Dear Dean Cascadden, Mr. Ford, and Mr. Larabee,

Please see attached letter from the Bow Drinking Water Committee to request your consideration and further action to reduce lead in drinking water in our schools, using the State of New Hampshire Lead Remediation Grant.

I am available to discuss by phone or video conference at your convenience, just let me know when would be a convenient time. Thank you for all do for our kids. Sincerely,

Cynthia Klevens, Chair, Bowdrinkingwater@bownh.gov
