NOVEMBER 24, 2021

To the Residents of Heather Lane,

The Town of Bow is planning to expand water service to the north end of the Town, including the Bow Mills area, Bow Junction, and the Heather Lane neighborhood. The project is currently in the design phase, with construction not projected to begin until fall of 2022. You are invited to attend a neighborhood meeting regarding the proposed Water System Extension project in the Town of Bow. The meeting will focus on the project's impact on Heather Lane, including bringing water service to that area of Town, and the proposed water storage tank on the New Hampshire DOT property abutting Heather Lane. **The meeting will be held at on Wednesday, December 8th, in Room C of the Municipal Building at 7:00 PM.** We look forward to your participation and insight as we move forward with this project.

Sincerely,

Matthew Taylor,

Town of Bow
Community Development Director
